

Library Resource Quick Guide

Library website: www.arbor.edu/whitelibrary

If you need journal articles, start here. After clicking this link, choose "Nursing and Health."

Choose this link for books, eBooks, CDs, and DVDs.
HINT: use the Advanced Search feature and choose "eBooks (Online)" under "Location" to look for books you can access immediately!

This is a great general database that allows you to search through the majority of the collection at once. It will return a large number of results, but can be especially useful if you're trying to determine the angle of your search and want to see a broad scope of perspectives.
